## STUDER S20-2

### Technical Data

Power supply: 3 x 400 V, 50Hz

Center height: 100 mm

Distance between centres: 400–650 mm

Fitting taper Workhead: MT 4

Fitting taperbtailstock: MT 2

Power requirement Wheelhead: 3 KW

Grinding wheel: 350 mm

### Options:

SENSITRON

DRO 2-Axis

### Specialities:

Workhead, Wheelhead and I.D. attachment with stepless speed (frequency converter)

Longitudinal slide: precise repetition of positioning

Dressing with automatic mass compensation

Working cycle programmable

2 different diameters programmable in 1 cycle

### Accessories:

On request
